Serial No. 08/816,011
Art Unit 1646

1. The reply filed on 19 October 1999 (Paper No. 15) is not fully responsive to the prior Office action because of the following omission(s) or matter(s). See 37 CFR 1.111.

The communication filed 19 October 1999 (Paper No. 15) is not fully responsive to the communication mailed 18 August 1999 (Paper No. 14) for the reason(s) set forth on the attached Notice To Comply With The Sequence Rules or CRF Diskette Problem Report. If a complete reply has not been submitted by the time the shortened statutory period set in the communication mailed has expired, this application will become abandoned unless applicant corrects the deficiency and obtains an extension of time under 37 CFR 1.136(a). In no case may an applicant extend the period for reply beyond the SIX MONTH statutory period.

Applicants argue that under the new rules the sequence contains less than four specifically defined amino acids. However, the submitted sequence listing conforms to the old rules. If the applicants wishes to follow the new rules, the sequence submitted must be filed under the new rules. The sequence listing under the old rules cannot be used in conjunction with the new rules to overcome the rejection.
